### **DETAILED ACTION**

This Office action responds to the amendment filed on 10/26/2005.

#### ***Acknowledgment***

1. The amendment filed on 10/26/2005, responding to the Office action mailed on 7/26/2005, has been entered. The present Office action is made with all the suggested amendments being fully considered. Accordingly, pending in this Office action are claims 29-56.

#### ***Reasons for Allowance***

2. Claims 29-56 allowed.
3. The following is an examiner's statement of reasons for allowance:

In the examiner's opinion, it would not have been obvious to a person having ordinary skill in the art to have a single semiconductor element in a flip chip construction comprising two solder contacts having different peripheral outlines *and* having at least one of the same peripheral lengths of the respective outlines or the same surface areas in comparison to one another at the contact side of the semiconductor element. Inoue, the closest prior art, differently suggests significantly different surface areas and

significantly different peripheral lengths for each of the two contacts (see, e.g., col.10/II.23-26).

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
